## Executive Summary

LandLoyalty (LLTY) is a pioneering real estate-backed cryptocurrency on the Solana blockchain. By tokenizing property investments, LLTY enables global users to participate in high-yield real estate without traditional barriers. Our presale offers early access at discounted rates, with profits from property acquisitions distributed directly to holders.

- **Total Supply:** 10,000,000,000 LLTY (fixed)
- **Blockchain:** Solana (fast, low-cost)
- **Backing:** Prime properties in Dubai, Singapore, London
- **Utility:** Passive income, governance, staking

## Problem Statement

Traditional real estate investment faces challenges: - High entry barriers (capital, geography) - Illiquidity and long holding periods - Regulatory hurdles in cross-border deals - Lack of transparency in profit distribution

Cryptocurrencies offer liquidity but often lack real-world backing, leading to volatility.

## Solution: LandLoyalty Ecosystem

LLTY bridges these gaps by: 1. **Acquiring Properties:** Using presale funds to buy undervalued assets in crypto-friendly regions. 2. **Profit Distribution:** 50% of rental/sale profits airdropped quarterly to holders (proportional to holdings). 3. **Governance:** DAO for voting on acquisitions. 4. **Staking:** Earn extra yields by staking LLTY. 5. **Token Utility:** Use LLTY for property fractional ownership NFTs.

## Technology Stack

- **Smart Contracts:** Built with Anchor on Solana for security and efficiency.
- **Presale Mechanism:** 3-phase timed sale with PDA for trustless execution.
- **Oracles:** Chainlink for real-world price feeds (property values).
- **Wallets:** Integration with Phantom, Solflare.

## Tokenomics

- **Presale:** 30% (3B LLTY) - Sold in phases at 0.002, 0.003, 0.004 USDC
- **Liquidity:** 35% (3.5B LLTY) - Locked on Raydium/Orca post-presale
- **Team:** 10% (1B LLTY) - Vested 2 years
- **Marketing:** 10% (1B LLTY) - Community growth
- **Property Management:** 10% (1B LLTY) - Operations
- **Property Search:** 5% (0.5B LLTY) - Acquisitions

No inflation; deflationary via buy-backs from profits.

## Roadmap

- **Q1 2026:** Token launch, presale, audits.
- **Q2 2026:** First acquisitions, DEX listing.
- **Q3 2026:** Mobile app, DAO launch.
- **Q4 2026:** Staking, global expansion.
- **2027+:** Portfolio scaling, partnerships.

## Team

- **Founder:** Anonymous for security; 10+ years in real estate and blockchain.
- **Advisors:** Experts from Solana ecosystem and property firms.

## Risks and Disclaimers

- Market volatility
- Regulatory changes
- Property market risks

This is not financial advice. Invest responsibly.

## Conclusion

LLTY represents the future of asset-backed crypto. Join the presale today.
